

## Medication Form

According to Statesville Christian School's Student and Parent Handbooks, if a student is required to take a prescription medicine during the school day, SCS can store these medicines in the office and the student may come to the office to take the medication. In this case, a parent **must** complete the required medication form.

SCS does not wish to inconvenience parents or students; our only concern is student safety and school compliance with the laws and procedures that govern these matters.
